About me

I'm currently seeking for an opportunity as a Software Engineer with a focus on full-stack development. I'm also exploring DevOps practices, especially in cloud environments, to better understand modern software deployment and scalability.

Education

Bachelor of Computer Science - English program

Ho Chi Minh City University of Technology (HCMUT)

2023 – Present

Key Skills

Technical Skills:

Programming Languages: JavaScript, TypeScript, PHP, SQL

Backend Development: Node.js, NestJS, RESTful API development, JWT authentication

Databases: MongoDB, Microsoft SQL Server, Azure Table Storage

Cloud & DevOps: Azure Functions, Azure Static Web Apps, GitHub Actions, CI/CD fundamentals, Cloudflare

Development Tools: Git, GitHub, Visual Studio Code

Projects

CSE Job Posting Website – Full-stack Student Project

Description: A web-based job posting platform for Computer Science students.

Link: github.com/n-n-kim/Job-Posting-Website

- Built a full-stack job posting web application using JavaScript, Node.js, Express, and MongoDB.
- Implemented RESTful APIs, authentication (JWT), and CRUD operations for dynamic data management.

YOLOHome - AIOT Project

Description: A web based platform that allows users to manage and monitor connected home devices

Link: <https://github.com/XuanSang2005/YOLOHOME.git>

- Used Laravel (PHP) to build backend APIs and manage smart home devices and commands.
- Blade templates (HTML/CSS) to develop basic dashboard interfaces for controlling lights.

TienDat Wedding - Cloud-based platform

Description: A platform that enables users to browse templates, customize wedding invitations online, save designs to the cloud, and chat with admins for consultation.

Link: <https://github.com/n-n-kim/TienDat-Wedding-Shop—Cloud-Platform.git>

- Developed a responsive React + TypeScript + Vite application with Tailwind CSS, Context API, Google Sign-In, template gallery, wedding card designer, and chat-based consultation flow.
- Implemented serverless backend APIs with Azure Functions, Azure Table Storage, Google token verification, Fetch API integration, Azure Static Web Apps deployment, and GitHub Actions CI/CD.

Experience

Netcompany Vietnam — Software Engineer Intern, IT Accelerator Program

- Selected for Netcompany's IT Accelerator internship track, working on a mentor-guided software project simulation.
- Collaborated with teammates to analyze requirements, discuss technical solutions, and deliver project tasks in an international working environment.

Certifications

IELTS 6.0 (2023)
